

## Product Description:

### ASTM D2846 CPVC-CTS Pipe

North American Pipe's CPVC-CTS (Copper Tube Size) product line is manufactured to meet the needs of a range of residential domestic water piping systems. With top quality raw materials and modern processing technology North American Pipe's CPVC pipe meets all industry standards in addition to our own rigorous quality control standards. North American Pipe's CPVC-CTS product line has been designed to be used in both domestic hot and cold water lines to replace traditional copper tubing for a light weight, easy to install alternative. North American Pipe produces CPVC-CTS in both 1/2" and 3/4" diameters. Whether specifying or installing our pipe you can be assured that North American Pipe will provide the pipe "Right, On Time, All the Time".

### This product is made in accordance with the following specifications:

ASTM D2846  
ANSI/NSF 61

ASTM D1784

ANSI/NSF 14

### Short Form Specification for North American Pipe Corporation ASTM D2846 CPVC-CTS Pipe

Hot and cold water distribution pipe shall be made in accordance with ASTM D2846 from a CPVC compound conforming to a cell classification of 12454 as defined by ASTM D1784. Solvent weld belled end pipe shall be tested and approved for contact with potable water in accordance with ANSI/NSF 61 and NSF 14.
